3 motor single phase industrial vacuum cleaner

The ATTIX 115 & 125 are simple single phase industrial vacuums designed for cleaning in manufacturing and heavy industry. The machines are ideal for collecting both liquid and solid materials such as metal chips mixed with oil/coolant. They have a large capacity, high suction performance and robust design.
The ATTIX 115 & 125 are powered by 3x1000 Watt independent "by-pass" motors and come with a 100 litres capacity bin for heavy industrial clenaing. They are made of epoxy painted metal plate/tubes giving the machines a very robust and reliable design. The manual filter shaker ensures a good efficiency of the filter and the SitDown container system allows a convenient disposal without dis-assembling other parts of the vacuum cleaner.

- 3 independent "by-pass" motors
- L or M Class filter
- HEPA filter as option
- Easy manoeuvrabilty
- 100 litre SitDown container with castors & handle
- Manual Filter shaker as standard
- Mechanical floater as option for liquid collection
- Comfortable grip and robust steel chassis for durability and easy mobility
