HONDA
The Power of Dreams

# WB30

## 80mm (3 inch) General Purpose Water Pump

### Durable yet lightweight
High quality tubular steel frame and aluminium pump housing ensure easy portability with long life.

### OHV 4-stroke engine
Powerful and efficient with trusted reliability. Easy starting in all conditions with automatic decompression to reduce the pull-force needed.

### Oil Alert®
Prevents engine damage by automatically shutting the unit down if the oil drops below a safe operating level.

### Anti-vibration platform
Rubber engine mounts minimise vibration and extend the frame life.

### Quick-release couplers
Quick and simple to install the hoses with no tools necessary.

### Cast iron volute and impeller
Superior durability for long life performance, even when pumping abrasive silts and sand.

### Excellent performance
With a maximum output of 1100 litres per minute and a pressure of 2.3 bars the WB30 is ideal for moving large amounts of water, fast.

Whether it's site water containing silt and sand or plain freshwater, the WB30 pumps are ideal for shifting it fast. Premium performance and durability comes from the pairing of Honda's industrial grade OHV 4-stroke engines with a high quality abrasion resistant cast iron volute and impeller. The 3" WB30 is capable of moving a massive 1100 litres a minute and will pump up to 138,000 litres on a single tankful of fuel. The build quality doesn't just include the pump either. These tried and tested units are mounted on vibration-reducing rubber dampers to ensure smoother running and maximise the life of the heavy duty tubular steel frame.
