HONDA
The Power of Dreams

WX10

25mm (1 inch) Freshwater Pump

Lightweight and compact

Weighing just 6.1kg it's easy to carry, transport and store.

Super efficient

Revolutionary GX25 mini 4-stroke engine is clean and quiet with an operational noise of just 102dB at 7m.

Economical and environmentally friendly

GX25 4-stroke engine runs on unleaded petrol without the need to mix fuel and oil. Complies with stringent EN 2006 emission standards.

Sturdy platform

Rubberised feet minimise vibration and movement.

Quick release couplers

Simple tool-free hose connection.

Great performance

120 litres per minute output capacity, generating an impressive 3.7 bars of pressure - ideal for washing down or using a longer hose.

Operate at any angle

Unique 360° lubrication system enables the pump to be stored and operated at any angle or incline without risk of engine damage.

Whether it's irrigating the garden, pumping out a flooded cellar or onboard the boat, you'll be amazed at the performance you'll enjoy from the WX10 mini pump. Despite its compact size and weighing just 6.1kg, this superb little pump can move 120 litres of fresh water per minute for drainage, irrigation and general water transfer just about wherever you need to work.
